this act, shall adopt the route or routes and general plan of construction determined by the present Rapid-Transit Commission, it shall not be necessary to renew the application for consent of the Common Council or o

tion for consent of the Common Council or of the property-owners, the appointment of Commissioners by the General Term of the Supreme Court or confirmation by said court, but such route or routes shall be deemed already consented.

Any corporation formed under the act shall be exempt from taxation until one year from the commencement of the operation of its railways or a portion thereof.

Regarding the provisions of the bill Mr. Farquars said to-day: "The bill is modelled in nearly all respects upon the present Rapid Transit law, except that the restrictions which prevented private capital from embarking in any enterprise under the law have been removed. The bill contemplates an underground railroad, although the new commission will not be restricted to such a system."

J. Plerpont Morgan says that, owing to the postponement of the meeting of the Special Committee on Extensions of the Manhattan Railway Company, which was to have been held yesterday, nothing new will be submitted to the Rapid Transit Commission at its meeting to-day, and probably not until next week.
